

Our Love's Song

To: Our Love

From: Kiandra Miller

Verse 1. 2015 on a late night screen. Didn't know you'd mean everything to me. Just a message turning into fate. Two hearts learning how to wait. We held on through the in-between. Loving hard from a distance unseen. Every letter, every call, every tear. Just made it louder you were still right here. Pre-Chorus. Time tried to steal you away from me. But love kept writing our history. Chorus. Christian, you're the wish I made. On the nights I was most afraid. Every road led back to you. Like our hearts already knew. From the dark into the light. We kept holding on tight. Now forever feels so true. All the years just led to you. Verse 2. 2017 you came back home. No more loving you alone. 2019 down on one knee. Promising your world to me. Then a miracle with your eyes. Our little girl, our sunrise. Kemaria, our answered prayer. Proof that heaven heard us there. Pre-Chorus. From broken days to wedding rings. Look what faith and patience brings. Chorus. Christian, you're the wish I made. On the nights I was most afraid. Every road led back to you. Like our hearts already knew. From the dark into the light. We kept holding on tight. Now forever feels so true. All the years just led to you. Bridge. February 22, dressed in white. Said "I do" and it felt so right. After every storm we survived. That was the day our love came alive. Now a family, a life we built. Through every tear, through every guilt. We didn't fold, we didn't break. We became the love people ache for. Final Chorus. Christian, if the world falls through. I'd still find my way to you. Through every life, every view. I'd still say "I do". From a message to a ring. To the joy Kemaria brings. If I had one life to live again. I'd choose you, now and then.
