

## Rhythm In My Veins

**To:** Jasmine  
**From:** Will

[Verse 1]

Met you in the noise, the city spinning wild  
You were fire in the corner, with that stubborn, easy smile  
We talked until the morning, just the world and you and me  
You said love's a journey, I said, "Baby, let's just see"

[Pre-Chorus]

Now every dance floor, every sunrise  
Feels different with you by my side

[Chorus]

Jasmine, you're the rhythm in my veins  
You're the night that turns to morning, the calm inside the rain  
Every beat, every moment, you're the reason I believe  
Jasmine, you're the only song I need

[Verse 2]

We built something honest, something bigger than the days  
Found joy in all the quiet, in the messy, simple ways  
You're laughter in the kitchen, soft hands tangled close  
In the dark you tell me stories only you and I will know

[Pre-Chorus]

Swoonsong

And every heartache, every high  
All make sense with you in my life

[Chorus]

Jasmine, you're the rhythm in my veins  
You're the night that turns to morning, the calm inside the rain  
Every beat, every moment, you're the reason I believe  
Jasmine, you're the only song I need

[Bridge]

All these nights, we get lost in our playlist  
All these lights, but your face is my favorite  
If I had one forever—  
It's this, it's you

[Chorus]

Jasmine, you're the rhythm in my veins  
You're the night that turns to morning, the calm inside the rain  
Every beat, every moment, you're the reason I believe  
Jasmine, you're the only song I need

[Outro]

Yeah, Jasmine, you're the only song I need
