

Magic in the Twinkle Lights

To: Lilly

From: Benjamin

Merry Christmas, Lilly! you're my holiday magic!

Verse 1

Snowflakes tapping on the window pane
Lilly, you're humming to old holiday refrains
Tinsel tangled in your hair from laughing on the floor
Ornaments sparkle brighter than the year before

Pre-Chorus

And the world outside could freeze, I wouldn't care
Long as you and me are hanging memories everywhere

Chorus

Lilly, Christmas shines a little brighter when you're near
You fill this house with joy and love this time of year
Fuzzy socks and cocoa mugs, a twinkle in your eyes
Every wish I've ever made is standing by my side
Lilly, Christmas means you're here with me tonight

Verse 2

Boxes of glitter spill out across the room
You put the angel on the tree and suddenly it's June
In your laughter, there's a warmth that melts away the snow
Home is anywhere you are, wherever we may go

****Pre-Chorus****

We turn the music up and let the magic start
You make every moment feel like Christmas in my heart

****Chorus****

Lilly, Christmas shines a little brighter when you're near
You fill this house with joy and love this time of year
Fuzzy socks and cocoa mugs, a twinkle in your eyes
Every wish I've ever made is standing by my side
Lilly, Christmas means you're here with me tonight

****Bridge****

Lights flicker softly on the tree we made together
If every day could feel like this, I'd want it to last forever
Snow outside, but inside love is glowing
With you, the season's magic keeps on growing

****Chorus****

Lilly, Christmas shines a little brighter when you're near
You fill this house with joy and love this time of year
Fuzzy socks and cocoa mugs, a twinkle in your eyes
Every wish I've ever made is standing by my side
Lilly, Christmas means you're here with me tonight

****Outro****

Yes, Lilly, Christmas means you're here with me tonight
