

Carol's Song

To: Carol

From: Brandi

****Verse 1****

Swipe right, winter night, changed my whole life in a screen glow
From NYC city lights to Carolina slow
You hopped on a plane, wild heart, took a chance on me
Now we're making mixtapes out of every memory

Dancing in the kitchen, turning up the stereo
drinking old fashioned, making up our own show
Your hand in mine – feels like home everywhere we go
From NYC streets to Southern land, you make the world feel close

****Pre-Chorus****

You're my answer to a prayer I never thought I'd say
And every hello makes the distance fade away

****Chorus****

Carol, I love you like crazy
Never saw it coming, but baby
You're my sunrise, my best friend, my peace in the chaos
How did I get so lucky? I thank heaven above
'Cause loving you, Carol, is more than enough

****Verse 2****

Forehead kisses, airports, counting down the days
Every two weeks, you fly to me and all the blues just fade
We've run through Rome, touched the sky by the ocean side
But your laughter in my arms—that's my favorite place to hide

****Pre-Chorus****

Unexpected, unplanned, but it feels so right
I see forever in your eyes every time we say goodnight

****Chorus****

Carol, I love you like crazy
Never saw it coming, but baby
You're my sunrise, my best friend, my peace in the chaos
How did I get so lucky? I thank heaven above
'Cause loving you, Carol, is more than enough

****Bridge****

If I could, I'd hold your hand for the rest of my days
Making new stories, writing our names
From city lights to Carolina rain
With you, I wouldn't change a thing

****Chorus****

Carol, I love you like crazy
Never saw it coming, but baby
You're my sunrise, my best friend, my peace in the chaos
How did I get so lucky? I thank heaven above
'Cause loving you, Carol, is more than enough

****Outro****

Never expected, but now I can't imagine

One beat of my heart without you in the pattern

Carol, I love you like crazy—forever and after
