

# City of Sparks

To: Taylor

From: Lexi

\*\*\*“City Lights Forever”\*\*\*

\*(Verse 1)\*

We climbed the staircase, hearts racing in the cool night air  
Rooftop dreams above the city, neon fire everywhere  
You reached for my hand, your eyes said everything  
The skyline shining on us, as I heard my future sing

\*(Pre-Chorus)\*

Every wild tomorrow, every spark that makes me feel  
You’re the thunder in my silence, the truth behind what’s real

\*(Chorus)\*

Taylor, under city lights, you asked me forever  
My heart found its rhythm in your touch  
With your fire, your passion—nothing’s ever better  
I said yes to you, yes to us  
We’re writing our story in shining lights  
Taylor, will you love me for all our lives?

\*(Verse 2)\*

On highways after midnight, windows down, chasing songs  
You drum on the steering wheel—wherever you go, I belong

You bring the blaze, you light me up, you're every runaway refrain  
In a world of static faces, you're the one who calls my name

\*(Pre-Chorus)\*

Every wild tomorrow, every spark that makes me feel  
You're the thunder in my silence, the truth behind what's real

\*(Chorus)\*

Taylor, under city lights, you asked me forever  
My heart found its rhythm in your touch  
With your fire, your passion—nothing's ever better  
I said yes to you, yes to us  
We're writing our story in shining lights  
Taylor, will you love me for all our lives?

\*(Bridge)\*

Maybe love is just a rooftop moment,  
Maybe it's drumming out a beat in the dark  
But with every sunrise and every promise  
I see forever whenever I look at your heart

\*(Chorus)\*

Taylor, under city lights, you asked me forever  
My heart found its rhythm in your touch  
With your fire, your passion—nothing's ever better  
I said yes to you, yes to us  
We're writing our story in shining lights  
Taylor, will you love me for all our lives?

\*(Outro)\*

We're writing our story in shining lights

Taylor, for all our lives
